AN ESSENTIAL TOOL FOR ARCHITECTURAL METALWORK

Get the extra leverage and cutting power of a compound-action aviation snip with the smooth cut of a traditional pattern snip. Klenk's serrationless aviation snips ***leave no teeth marks in the metal.***

Perfect for architectural metals -- copper, brass and pre-coated metals -- where a smooth cut edge is needed. Also recommended for zinc metals, which are used extensively in the building industry in roofing, flashing and weather-proofing applications.
