

## The Latest Ergonomic Features

### NEW! Cushion-grip Handle

- More durable, making the seam roller last longer
- Better balance, making it easier to use and more ergonomic
- Better gripping surface than our previous cushion-grip handle

### Extended Offset Fork

- Better view of seam roller's contact point
- Better clearance for hands and knuckles
- Better protection from heat source device

Wood handle and standard single fork

Ergonomic handle and standard single fork

Ergonomic handle and extended offset fork

Everhard Products has more than 30 years of experience in manufacturing seam rollers and other tools for the commercial rubber roofing markets -- TPO, EPDM, and other membrane materials.

As the first USA manufacturer to produce the silicone seam roller for membrane roofing, **Everhard is the only manufacturer to incorporate ergonomic improvements into our seam rollers by adding the cushion-grip handle and extended, offset fork options.**

Everhard Products, Inc. is registered to ISO 9001.

## Steel Seam Rollers

Polished steel rollers have single or double forks and enclosed bearings. Some models are available with cushion-grip handles, extended offset forks, and heavy duty bearings.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>Double Forks - 5" Wood Handle</b>		
MR02020	1-1/2" dia. x 1-1/2" wide	0.906
MR02030	1-1/2" dia. x 2" wide	1.094
MR02040	2" dia. x 2" wide	1.813
MR02050	2" dia. x 2-1/2" wide	2.156
MR02080	2" dia. x 3" wide	2.680
MR02100	2" dia. x 4" wide	3.440
MR02110	2" dia. x 6" wide	4.880
<b>Single Fork - 5" Wood Handle</b>		
MR02250	1-1/2" dia. x 1-1/2" wide	0.875
MR02240	1-1/2" dia. x 2" wide	1.031
MR02140	2" dia. x 2" wide	1.750
MR02270	1-1/2" dia. x 1-1/2" wide, 1/4" radiused outside edge	0.844
MR02150	2" dia. x 2" wide, 1/2" radiused outside edge	1.688
MR02260	1-1/2" dia. x 2" wide, 1/4" radiused outside edge	1.000

## Silicone Seam Rollers

Silicone rollers have single or double forks and enclosed bearings. Silicone withstands high heat -- ideal for use with hot air guns. Some models are available with cushion-grip handles, extended, offset forks, and heavy duty bearings.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>Roll-N-Chek™ Ergo Roller - Single Fork - 5" Cushion-Grip Handle with Seam Tester</b>		
MR05032	<b>NEW LARGER DIAMETER!</b> Roll-N-Chek™ seam roller with built-in seam tester, 1-7/16" dia. x 1-3/4" wide roller, 3-1/2" plated steel seam tester	0.880
<b>Ergonomic Roller - Single Fork - 5" Cushion-Grip Handle</b>		
MR05029	<b>NEW LARGER DIAMETER!</b> 1-7/16" dia. x 1-3/4" wide, single extended offset fork (right-handed)	0.750
MR05022	<b>NEW LARGER DIAMETER!</b> 1-7/16" dia. x 1-3/4" wide, single extended offset fork (left-handed)	0.725
MR05028	<b>NEW LARGER DIAMETER!</b> 1-7/16" dia. x 1-3/4" wide, single standard fork	0.675
<b>Single Fork - 5" Wood Handle</b>		
MR05020	1-5/16" dia. x 1-3/4" wide	0.520
MR05240	2" dia. x 2" wide	0.969
<b>Double Forks - 5" Wood Handle</b>		
MR05110	2" dia. x 4" wide	1.820

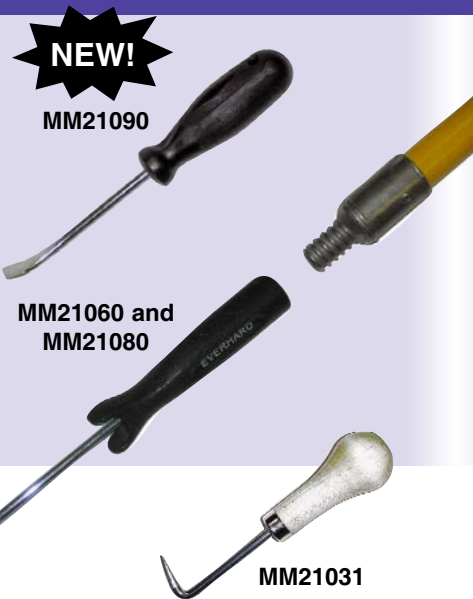

## Heavy Membrane Rollers

Ideal for rolling out and setting membrane systems, eliminating bubbles, waves, folds, and crimps. Lighter models good for field and sidelap areas with thinner membranes, while heavier model best for pressure setting membrane adhesive, where U-turns are easy with three independently turning rollers. All three models have 32", removable, solid steel handles with grips. Model MR02470 has a 6" roller head with more rounded corners and a 48" solid steel handle.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>Heavy Membrane Roller, Steel - Heavy Duty Double Forks</b>		
MR02490	Heavy membrane roller, 2-1/2" dia. x 18" w x 40-3/8" h	32.000
MR02495	Heavy membrane roller, 2-1/2" dia. x 12" w x 40" h	25.000
MR02500	Heavy membrane roller, 4-1/2" dia. x 15" w x 40-1/2" h	79.000
MR02470	Heavy membrane roller, 3-1/2" dia. x 6" w x 52-3/8" h	22.000

MM21031

## Convertible Seam Rollers

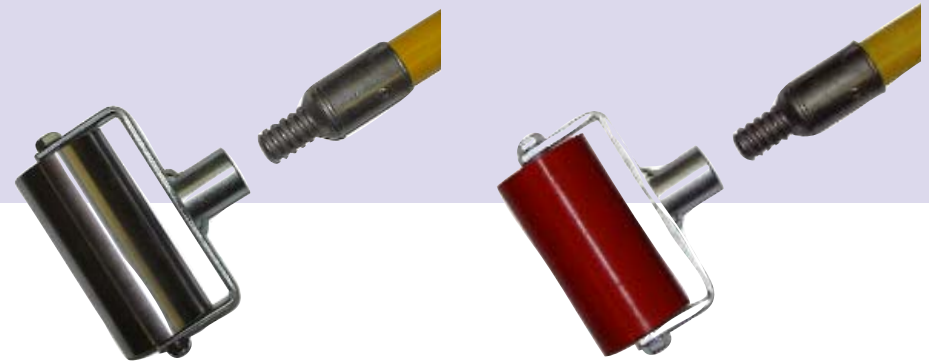

**Hand rollers convert to stand-up rollers in seconds!** 5-1/2" cushion-grip handle provides comfortable, no-slip grip -- perfect for hands-on work, when getting close to the work area or using more pressure on the work surface is important. The optional 60" fiberglass handle (sold separately) has a threaded steel tip that screws directly into the cushion-grip handle instantly creating a stand-up seam roller. Ideal for rolling out seams while standing, when less pressure is required. With the optional 60" handle, Everhard's convertible seam roller is two tools in one!

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>Convertible Steel Roller - 5" Cushion-Grip Handle</b>		
MR02130	2" dia. x 2" wide, single fork	2.420
MR02090	2" dia. x 4" wide, double forks	3.980
MR02170	2" dia. x 6" wide, double forks	5.460
<b>Convertible Silicone Roller - 5" Cushion-Grip Handle</b>		
MR05270	2" dia. x 2" wide, single fork	1.600
MR05260	2" dia. x 4" wide, double forks	2.420
<b>Optional 60" Fiberglass Handle</b>		
MR02400	60" fiberglass handle	1.031

## Stand-up Seam Rollers

Stand-up rollers are best for finishing work and other seaming tasks while standing. 60" fiberglass handles screw directly into roller heads, which have heavy-duty double forks. Handles are replaceable and available with different sizes of steel or silicone rollers.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>Stand-Up Seam Roller, Steel - Double Forks - 60" Fiberglass Handle</b>		
MR02350	2" dia. x 2" wide	1.800
MR02360	2" dia. x 3" wide	3.660
MR02370	2" dia. x 4" wide	4.400
MR02380	2" dia. x 6" wide	4.500
<b>Stand-Up Seam Roller, Silicone - Double Forks - 60" Fiberglass Handle</b>		
MR05120	2" dia. x 4" wide, fiberglass handle	2.506
<b>Replacement 60" Fiberglass Handle</b>		
MR02400	60" fiberglass replacement handle	1.031

## Specialty Seam Rollers

**"V" Rollers, nylon or aluminum,** provide greater ease in seaming tight angles and performing intricate detail work. Roller hubs taper to a 5/64" rounded edge radius that won't cut membrane material.

**Rounded Edge Steel Rollers** are perfect for detail and flashing work where preventing membrane damage is top priority. The rounded edge allows for secure seaming yet is easy on the membrane.

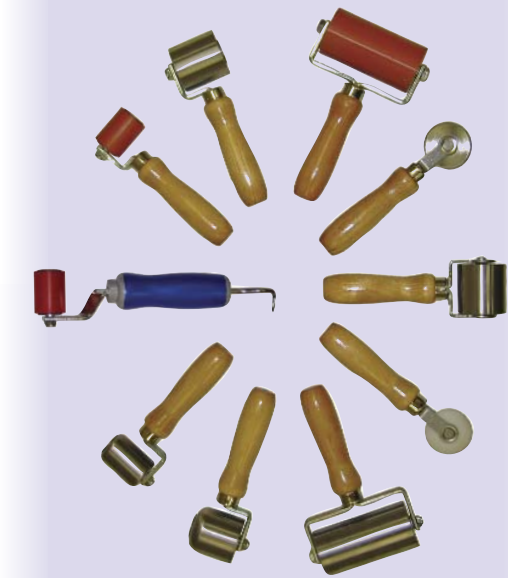

**Special Detail Rollers** are also available -- call toll-free 1-800-298-2832.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
<b>"V" Roller - Double Forks - 5" Wood Handle</b>		
MR12540	2" dia. x 7/16" wide nylon roller, hub tapers to a 5/64" rounded edge	0.344
MR13500	2" dia. x 7/16" wide aluminum roller, hub tapers to a 5/64" rounded edge	0.380
<b>Rounded Edge Steel Roller - Double Forks - 5" Wood Handle</b>		
MR08500	2" dia. x 1/16" wide	0.344
MR08530	2-1/2" dia. x 1/8" wide	0.469
MR08580	2" dia. x 1/4" wide	0.438
<b>Special Detail Rollers - 5" Wood Handle</b>		
MR12860	Nylon cone roller, 1-3/82" dia. x 4-1/8" wide	0.560
